

Brief Profile of Mr. Kamal Aggarwal

Mr. Aggarwal is engaged in his family run business of steel manufacturing and trading since 1975. Besides this he is serving for more than 30 years as an Honorary Secretary General, at **All India Induction Furnaces Association**. The Association was established in 1987, carries with it a legacy of being one of the premier industry associations in the country, representing a significant section of the small and medium enterprises steel units who are involved in steel melting and processing through Electric Induction Furnace route.

The association is an effective link and medium of communication between the Induction Melting Furnace units and various Ministries of Government of India and Professional Institutions including R&D Centres.

On behalf of the association, Mr. Aggarwal represents on various committees of Ministry of Steel and other bodies of Government of India dealing with statutory regulations, policy making, Excise and Customs, quality standardization, etc. related to the iron and steel industry.

He holds Bachelor's degree in Economics from Delhi University, Delhi. Beside this, he also like to share his expertise and knowledge by writing an article as well as presenting papers in the conference. He has a firm belief that Team Work and Innovation is the path to success.
